### White House Widows Still Active

Although we have only one man living, the Hon. Calvin Coolidge, who has had the proud distinc-tion to serve as Chief Executive of the Nation, we have as pictured above some charming women who have stood beside their husbands during their respective terms of office and filled the important post of First Lady of the United States. That they have done so with credit to

their high position is now a matter of history. Seeking no honors for themselves, content to bask in the reflected glory of their distinguished husbands, they still take a keen and active interest in the destiny of the country which called their husbands to the history and the country which called their husbands to the highest place within

### Insane Burglar In Escape From Lima Extremes of Uncle Sam's Air Corps

This little P-12-B army fighter and its "big brother" (a tri-motored 18-passenger transport) form an interesting example of the two extremes of Uncle Sam's air force. The small fighting plane can virtually hide itself beneath the transport despite the fact that it can fight with the enemy at an altitude of six miles above sea level.

It is capable of flying at 178 miles per hour and is one of the 90 similar craft which are being delivered to the army. The upper wing span of the smaller plane is 30 feet, as compared with 80 feet in the case of the transport, while the lengths are 20 and 55 feet, respectively.

What insurance?" he wondered.

"The insurance of OLD GOLDS, boy friend. Throat-ease and tender tones caused by the mellow, mild, heart-leaf tobacco; vocal cords that act without a struggle; no tickle, scratch or scrape. OLD GOLD yourself, Marmie, and we shall be inseparable. There's not a bark in a billion."

### **GAS ON STOMACH** IS DANGEROUS

### TELLS HOW TO STOP IT

Gas, Pain, Bloating and a feeling of fullness after eating are almost certain evidence of excessive hydrochloric acid in the stomach.

Too much acid irritates the del cate stomach lining, frequently causing chronic Gastritis and dangerous Ulcers. Food ferments and sours, forming a gas that distends the stomach and often seriously affects the Heart

It is genuine folly to neglect such

A better way is to get from any reliable drug store some Bisurated Magnesia (powder or tablets) and take a lit-tle in water after each meal. Bis-urated Magnesia will stop the worst gas attack quickly and without emgas attack quickly and without em-barrassment. ### **GASON STOMACH** IS DANGEROUS

TELLS HOW TO STOP IT

Gas, Pain, Bloating and a feeli of fullness after eating are almo certain evidence of excessive hy drochloric acid in the stomach. Too much acid irritates the del

cate stomach lining, frequently gerous Ulcers. Food ferments and sours, forming a gas that distends the stomach and often seriously affects the Heart.

It is genuine folly to neglect such a condition or to treat with artificial digestive aids that cannot neutralize the stomach acid. A better way is to get from any reliable drug store some Bisurated Magnesia (powder or tablets) and take a little in water after each meal. Bis-urated Magnesia will stop the worst gas attack quickly and without em-barrassment. Taken right after eating, is prevents formation of gas and acids so there is no sourness bloating or pain. Pleasant and per fectly harmless to use—Bisurate Magnesia does give wonderful re lief in nine out of ten cases. Asl your Doctor or Druggist. Try it to

# A NEW BUTTER The HOLLAND Two Pound Country ROLL!

Now ... AVAILABLE for the

FIRST TIME

The . . . FINEST BUTTER You EVER TASTED

### A Different Butter With a Flavor Truly Delightful

Here is a butter so different in flavor. and so delightful, that the first taste will entrance you. Try it once and you will use it always.

THE HOLLAND two pound country roll combines the best features of both Danish and American butters, admittedly the two finest butters made.

Some years ago a family of Danish buttermakers came to America to establish a creamery to make Danish butter.

They went to the University of Illinois, one of the finest dairy schools in America. There they studied the art of making American butters.

After study came experimentation - this method was tried, and that-always striving for a butter whose flavor and keeping qualities would exceed all known brands.

### Four Points of Superiority

- 1. The HOLLAND two pound country roll retains its freshness and quality much longer than any other butter.
- 2. The HOLLAND two pound country roll has a flavor so remarkably rich it can be eaten by itsolf with enjoyment.
- The HOLLAND two pound roll is convenient in size. It makes an attractive appearance on the table. When slicing, cut right through the wrapper.
- There is no shrinkage with the HOLLAND two pound roll because of moisture evaporation.

When you taste the HOLLAND two pound country roll, notice the texture of the butter, its smoothness, and the entire absence of moisture.

At last they succeeded. The HOLLAND two pound country roll is the result of those years of study and experimentation.

It is not just another butter-but a NEW butter-a butter with a flavor so rich, so delicate, so smooth, that it can be eaten by itself with enjoyment. The HOLLAND two pound roll will retain its freshness and flavor easily two or three times longer than the average butter now on the market.

You can buy it now at your neighborhood grocer. The HOLLAND two pound roll costs no more per pound than the average good butter you have been using. Try a roll today!
